SEDIMENTARY
GEOLOGY

Contents Volume 96, 1995

Introduction

T.A. Davies, M.F. Coffin and S.W. Wise, Jr.	1
Development of the Mozambique and Ruvuma sedimentary basins, offshore Mozambique	7
G. Salman and I. Abdula	7
Stratigraphy, depositional history and environments of deposition of Cretaceous through Tertiary strata in the Lamu Basin, southeast Kenya and implications for reservoirs for hydrocarbon exploration	43
K. Nyagah	43
Mesozoic tectono-stratigraphic evolution of the Seychelles microcontinent	73
Ph.S. Plummer and E.R. Belle	73
Global cyclostratigraphic analysis of the Seychelles Southern Shelf for potential reservoir, seal and source rocks	93
M.A. Perlmutter, P.A. Brennan, S.C. Hook, K. Dempster and D. Pasta	93
The tectonic evolution of western India and its impact on hydrocarbon occurrences: an overview	119
A.M. Gombos, Jr., W.G. Powell and I.O. Norton	119
Seismic stratigraphic evidence of ice-sheet advances on the Wilkes Land margin of Antarctica	131
S.L. Eittreim, A.K. Cooper and J. Wannesson	131
A time-slice approach to the history of Cenozoic sedimentation in the Indian Ocean	157
T.A. Davies, R.B. Kidd and A.T.S. Ramsay	157

Expressed

Shape sorting of flood-transported synthetic clasts in a gravel bed river	181
J. Hattingh and W.K. Illenberger	181
Geochemical constraints on the origin and migration of palaeofluids at the northern margin of the Variscan foreland, southern Belgium	191
Ph. Muchez, M. Slobodnik, W.A. Viaene and E. Keppens	191
Sedimentary processes and variations in slope-current activity during the last Glacial–Interglacial episode on the Hebrides Slope, northern Rockall Trough, North Atlantic Ocean	201
J.A. Howe	201
Chronology of Neogene sedimentation, stratigraphy, and tectonism in the Campo de Talampaya region, La Rioja Province, Argentina	231
D.C. Malizia, J.H. Reynolds and K.D. Tabbutt	231
An integrated study of fill and deformation in the Andean intermontane basin of Nabón (Late Miocene), southern Ecuador	257
D. Hungerbühler, M. Steinmann, W. Winkler, D. Seward, A. Egüez, F. Heller and M. Ford	257

Discussion

Can REE patterns and U–Th variations be used as a tool to determine the origin of apatite in clastic rocks?

— comment

B.F.F. Reczko and P.G. Eriksson

281

Can REE patterns and U-Th variations be used as a tool to determine the origin of apatite in clastic rocks? — reply H.G. Dill	283
